TO THE ALUMNI

With this bulletin, the officers and faculty of Otterbein University send their greetings and good wishes. The alumni committee have been patient and persistent in their efforts to obtain the latest possible information concerning our graduates. Errors, changes of address or other information should be reported promptly to Professor Alma Guitner, A. M. It is the constant endeavor of the University to keep in closest touch with its alumni, but this can be done only when there is fullest coöperation on their part.

This is proving itself to be a most delightful year. We have a fine attendance and every department and organization are doing enthusiastic work. Otterbein is passing through a transition stage. During the past decade her student attendance has increased 180%, the value of the buildings and grounds 247% and the total assets 137%. The present projects for enlargement and expansion include the completion of the \$500,000 new endowment fund, the construction of a new science building, the enlargement of the present chapel, the completion of the new athletic field already begun by the class of 1911, and the installation of a pipe organ. The total cost \$575,000, about one-fourth of which is already secured in cash and good pledges.

Otterbein is here to stay. Every alumnus is called upon to stir up his patriotism and zeal for the hasty culmination of these worthy projects and the bringing of the old school once for all to a place of permanence and security.

A teachers' exchange is being organized by the faculty through which a committee of its creation may be helpful to students and graduates, as well as boards of education and superintendents, in locating them, without charge in a congenial and suitable position.

A movement will be launched soon by the faculty and student body for a thorough canvass of our territory for the

enlistment of the attention and attendance of every prospective student who has by any right a leaning toward Otterbein.

As usual the institution needs money for current expenses. As the institution grows, this need becomes greater and will continue to do so until an adequate productive endowment is procured. Till then we shall continue to look to our friends for financial help.

With gratitude for the sympathetic support of the past and firm confidence and expectant hope for the future growth, prosperity and efficiency of Otterbein, I am,

Very Truly,

WALTER G. CLIPPINGER.

November 22, 1911.

REGISTER OF GRADUATES.
